<b>Personal Attributes</b>	<p>I enjoy spending time creating and designing my own web projects and experimenting further within the field of web design and development, as I like developing my knowledge and creative skills. I enjoy gaming, especially multiplayer games as I get to spend time online with other people and work together to reach common goals. I also spend my spare time swimming, cycling, and walking as they allow me to clear my mind making it easier to tackle new problems.</p> <p>I have experience with HTML, CSS, JavaScript, PHP, MySQL, Python, Flask, Java, VIM, Git, Microsoft Office Suite, Adobe Illustrator, Photoshop and XD, Linux.</p> <p>I am an excellent team player and confident at working independently. I am a natural born problem solver, who is friendly and approachable. I have experience in creating and managing projects and am determined to see a project through to the end.</p>
